

NailClear StayFast Lacquer

Directions/usage: Remove any previously applied StayFast Lacquer with nail polish remover. Clean the affected area with soap and warm water and dry thoroughly. Shake well before using. Apply a thin layer over the affected nails. Allow a few minutes to dry. Reapply every 2-3 days for up to 4 weeks. If using nail polish on top, remove prior to reapplication of StayFast Lacquer. If you see improvement within 4 weeks of use, you may continue to use StayFast Lacquer until satisfactory results are obtained.

This product is for external use only. When using this product avoid contact with the eyes. Stop using this product if irritation occurs. Keep out of reach of children. If swallowed, get medical help or contact a poison control center right away.

Nail polish may be applied on top of StayFast Lacquer after it has dried completely.
